PREFACE

The papers in this volume were originally presented at the history session, organized by Kazunobu Ikeya and Françoise Sabban at the 6th Asian Food Study Conference (AFSC) held on 3-5 December, 2016 at Ritsumeikan University Biwako-Kusatsu Campus, Shiga, Japan.

We thank the organizing committee of the conference, Prof. Zhao Rongguang (Zhenjian Gongshang University) and Prof. Toshio Asakura (Ritsumeikan University) for their support and assistance in facilitating the publication of the papers from this conference. We also want to express our gratitude to the editorial committee of Senri Ethnological Studies (SES) at the National Museum of Ethnology in Osaka, Japan and the staff of the museum for the support in the production of maps, photographs, and figures. Editorial assistance, proofreading, and creation of the index were provided by staff at the National Museum of Ethnology in Osaka to whom we express our deepest appreciation for all of their hard work.

Some papers of this volume also present the results of "Area Studies Project for Northeast Asia" (Representative: Kazunobu Ikeya, National Museum of Ethnology, NME) and "Multidisciplinary Collaborative Project, The Constellation of Food in Asia" (Representative: Atsushi Nobayashi, NME) of the National Institutes for the Humanities (NIHU). We are grateful to Minami Hirakawa, President of NIHU, for supporting these research projects.

We hope that these papers will aid in the formulation of forward-looking policies concerning food cultures in Asia, as well as foster their future development. We express our heartfelt thanks to our many people friends for their generosity, patience, and valuable data they provided us.

Kazunobu IKEYA
National Museums of Ethnology, Japan
